DETAILED ACTION

Allowable Subject Matter

Claims 1-2, and 5-7 allowed.

EXAMINERS REASONS FOR ALLOWANCE

The prior art does not anticipate nor render obvious the combination as set forth in the independent claims, and specifically does not show a radiation thermometer for detecting a surface temperature at a plurality of locations on a refrigerant evaporator. Furthermore prior art fails to teach an automotive air conditioner wherein after the refrigerant evaporator has cooled air, a plurality of temperature detectors detects an air temperature in an airflow direction. Kakehashi (US 6192968) teaches an air conditioning system with a refrigerant evaporator 13, variable displacement type compressor 2, and radiation thermometer 33 capable of detecting solar radiation entering the passenger compartment of a vehicle, yet fails to teach detecting solar radiation energy emitted from the surface of the refrigerant evaporator 13. Kishita et al. teach a solar radiation sensor 93 as apart of an ECU 10, and a post-evaporation sensor 94 for detecting air temperature downstream of an evaporator. Though the evaporator 4 covers the entire region of the passenger compartment 11, and the solar radiation sensor 93 detects the solar radiation intensity within the passenger compartment 11 the solar radiation sensor is not detecting a solar radiation intensity emitted from the evaporator surface. Further Kishita et al. teach it is conventional to control the operation of a refrigerant compressor based on a target post evaporator temperature detected by a refrigerant evaporator, however does not teach a lowest surface temperature detection. Prior art does not

teach nor render obvious using infrared sensors or other radiation sensors to detect evaporator surface temperatures at a plurality of locations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
